Help When Retirement Is Not Enough

- Having worked with CSB before, René felt confident in referring her friend, Cleveland, to **seek guidance and help from CSB**
- After retiring from KSC, Cleveland realized that he could not survive on his retirement alone
- Cleveland came to CSB with **no formal education, an outdated resume, and no knowledge of how to use a computer**
- At CSB, he was able to receive **help with updating his resumé and searching for jobs**
- **After just 14 days of working with CSB, Cleveland began working** with Port Canaveral as a janitor and is happy and thankful

“He is a good friend of mine who really needed help finding a job and you made that possible. Thank you so much!” ~René, Cleveland’s friend

Juniors to Jobs

- The **2014 Summer Juniors to Jobs** program is a collaborative effort between CareerSource Brevard, The Palm Bay Chamber of Commerce and the City of Palm Bay.

“I want to challenge Palm Bay’s employers to accept and sponsor at least one youth for the summer through this (Juniors2Jobs) program,” said Mayor William Capote. *“This is so much more than just providing a job. **It’s about investing in the future of our community by educating our youth in how to be productive members of society with strong work ethics, integrity, and dependability.**”*

- The **Harris-Casel Institute** is currently hosting **2 students** and have included this project in their monthly newsletter

*“I want to express my **appreciation** for you involving us in the Juniors to Jobs Program. **We are enjoying having the students here.**”*

~Carol, Campus Director of Harris-Casel Institute

From Training to Opportunities

- Marcia came to CSB **searching for help** with her career
- She was introduced to an opportunity to **receive training** through the Drupal program
- CSB was able to connect Marcia with an **internship opportunity to utilize her new skill set**

*I am **happily working** as a free lancer on Drupal Web sites. The **opportunities just keep finding me**, due to the tight knit Drupal community and the contacts I made through the internship. I **could not have done this without the training and internship I received through CSB**. You guys rock. You can close out my file as a success story.*
