FREE ONLINE COMPUTER CLASSES

- https://www.digitalliteracyassessment.org/ This website measures your current knowledge of computers and then teaches at the very beginning level.

- https://edu.gcfglobal.org/en/ Over 1,000 lessons in technology, math, reading, and more.

- https://www.digitallearn.org/ Digital Learn is a great website to brush up on your computer skills and offers tutorials for learning.

- www.microsoft.com/digitalliteracy Digital Literacy is broken down into three levels: Basic, Standard, and Advanced. You may start from the beginning or jump to your desired level. There is an audio track with this series, so headphones/speakers are beneficial.

- www.powertyping.com Learn typing with this free online tutor. Typing lessons are great for beginners or as a practice to improve your speed. The typing tests will keep track of your speed.

- www.bbc.co.uk/schools/typing The BBC's children section lets you play games resulting in an increase in your typing speed. Dance Mat typing is an excellent tool for learning the placement of letters on the keyboard, as well as which fingers to use when typing. Plus, it's FUN.

- www.alison.com ALISON offers courses on a variety of topics, including tutorials on Microsoft® Word, Excel, and Access; Touch Typing; Google Gmail; understanding potential workplace safety issues; basic economics; and even identity theft.

- http://brevard.skillupamerica.org/job-seekers.cfm Free online learning with 6,000+ courses available. For more information, send an email to: SkillUpBrevard@careersourcebrevard.com.
